*Examiner's Reason for Allowance*

Claims 1, 4-9, and 15-18 are allowed.

Claims 2, 3, 10-14, and 19-23 are canceled with the consent of Attorney Bill Dockrey.

The following is an examiner's statement of reasons for allowance: The prior of record does not sufficiently teach "two parallel plates each having a through-hole defining an optical input/output defining and optical axis" wherein the two parallel plates are secured by the first fastening studs and the second fastening studs "and the first fastening studs is configured to limit lateral movement of the second bumps."

The prior art of record discloses flip chip bonding as a means of passively aligning two adjacent parallel plates, however, the prior art of record does not disclose each plate having a through hole. The prior art of record disclose aligning an optical fiber mounted in a through hole of the first plate, but the prior art disclose the second plate being an optical element, namely and optical chip and not a second through hole. Furthermore, said claim limitation in combination with the first and second fastening studs overcame the prior art of record.

Therefore, claims 4-9, and 15-18 are allowed by virtue of dependency to claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
